Digital Silk Road: Reviving Silk Road Using Massive Geospatial Data Asanobu KITAMOTO, National Institute of Informatics, http://dsr.nii.ac.jp/

Data-Centric Approaches - 4th Paradigm

- 1. Observation
- 2. Theory
- 3. Simulation
- 4. Data Analysis

Science & Technology

Culture

Text-centric

Insect' s eye view = deeper Only focus on 'my' domain Traditional way of research

Data-centric

Frontier

Bird's eye view = wider

Have a look on other domains

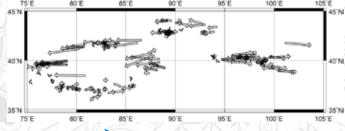

Innovative way of research

Digital humanities: Data-centric humanities powered by informatics

1. Digital excavation

Digitization

Geometric correction

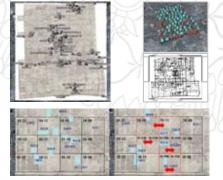

Quality Control

Discovery of missing ruins ->

2. Virtual City

Beijing: massive (29 bil. pixels) Bam (Iran): Insufficient, heterogeneous data

Linking
